

**BERKEL**

*Always The Original*

## Avantgarde

The new Avantgarde has enabled Berkel to not only design a very functional machine, but also one with many innovations. Indeed many of these innovations are so unique that they have been patented.

The automatic sharpener, knife centre plate, index (slice thickness control), and product table, are some of the new AND patented ideas that have been included in the Avantgarde design. These innovations are thought to provide the user with, extra safety, better and easier cleaning, great reliability and durability, and excellent functionality.

Model	BSAG 25°
Capacity (round) (mm)	228
Capacity (rectangle) (mm)	300 x 153H
Maximum slice thickness (mm)	32
Motor rating	0.37 kW
Knife diameter (mm)	330
Electrical specification	230 V, 50 Hz 1 Phase
Dimensions (mm)	550 x 430 x 418H
Net weight	58kg
