

## Modular Ice Cubers N131M, N201M, N301M, N501M

The modular ice cube machines with vertical evaporator are specially conceived for large scale users: fast food restaurants, discos, hotels and bars. Combining maximum energy yield and low investments. The vertical evaporator produces an ice sheet that, dropping into the bin, breaks into single die-shaped cubes.

- Large production in a small space.
- Easy installation and reliable operation.
- Hygienic and clean.
- Environmental friendly refrigerant.

Fits to Macbrothers Ice bin
